

The team at Spa Kool have been busy giving our Treatment Menu a mini-makeover. We've plucked, lifted and refined our selection to now deliver a 'trimmed but full bodied' little number!

We're sorry, but due to those people in government (less said the better!) we have had to increase some of our prices to reflect the VAT and product price increases. However, because we understand that your purse strings have probably tightened too, we've tried to keep many of your favourite treatments at the same price and one or two have even been reduced!

## For Your Face

**Facials.** Dermalogica is the number one choice of skin care for professionals and consumers worldwide. It is dedicated to delivering skin health results through innovation and professional recommendation, not through frilly packaging, promises of miracle cures or overblown hype. All facials are tailored to your skin type.

**Microdermabrasion** works by gently exfoliating the outer layer of skin cells, buffing away dead and dull cells to reveal fresh, younger looking skin.

Pure mineral crystals gently sweep away the damaged surface cells, encouraging the skin's natural renewal process, so that radiant and refined skin can shine through. Effective at reducing fine lines, crows feet, age spots and acne scars. Visible results can be seen right after the first treatment. However, a course of treatments may be recommended.

**Non-surgical face lift** is a revolutionary treatment which has an immediate lifting and firming effect on the skin, redefining the contours of the face and reducing fine lines and wrinkles. A course of treatments is recommended followed by monthly maintenance treatments.

Currents gently tighten and tone the muscles while smoothing the appearance of fine lines. The dual-tipped probes increase the effect on the muscle, producing immediate and dramatic results.
